PREFACE

THE following Bibliography aims at giving a complete list of the authorities cited in the third edition of *The Golden Bough*. Such a list may be of use to readers who desire to have further information on any of the topics discussed or alluded to in the text. It has been compiled by Messrs. R. & R. Clark's Press Reader from the references in my footnotes to the volumes, and it has been revised and corrected by me in proof. The titles of works which I have not seen but have cited at second hand are distinguished by an asterisk prefixed to them. Throughout the book I have endeavoured to indicate the distinction clearly by the manner of my citation, but lest any ambiguity should remain I have thought it well to mark the difference precisely in the Bibliography. In the case of Greek and Latin authors the editions which I have commonly used are generally noted in the Bibliography; they are for the most part those which I possess in my own library and have consulted for the sake of convenience.

The General Index incorporates the separate indices to the volumes, but as some of these, especially in the earlier volumes, were somewhat meagre, I have made large additions to them in order to bring up the whole to a uniform standard and to facilitate the use of the book as a work of reference. With this clue in his hand the student, I hope, will be able to find his way through the labyrinth of facts. All the entries have been made by me, but the arrangement of

them is in the main due to the Press Reader, whom I desire to thank for the diligence and accuracy with which he has performed his laborious task. The whole Index has been repeatedly revised and freely corrected by me in proof.

In conclusion it is my duty as well as pleasure to thank my publishers, Messrs. Macmillan & Company, for the never-failing confidence, courtesy, and liberality with which they have treated me during the many years in which *The Golden Bough* has been in progress. From first to last they have laid me under no restrictions whatever, but have left me perfectly free to plan and execute the work on the scale and in the manner I judged best. Their patience has been inexhaustible and their courage in facing the pecuniary risks unwavering. My printers also, Messrs R. & R. Clark of Edinburgh, have done their part to my entire satisfaction, they have promptly responded to every call I have made on them for increased speed, and with regard to accuracy I will only say that in the scrutiny to which I have subjected the book for the purpose of the Index I have detected many errors of my own, but few or none of theirs. Publishers and printers can do much to help or hinder an author's work. Mine have done everything that could be done to render my labours as light and as pleasant as possible. I thank them sincerely and gratefully for their help, and I reflect with pleasure on the relations of unbroken cordiality which have existed between us for more than a quarter of a century.

Vol. XII. BIBLIOGRAPHY AND GENERAL INDEX. 20s. net.

TIMES.—"The verdict of posterity will probably be that *The Golden Bough* has influenced the attitude of the human mind towards supernatural beliefs and symbolical ritual more profoundly than any other books published in the nineteenth century except those of Darwin and Herbert Spencer."

TOTEMISM AND EXOGAMY. A Treatise on Certain Early Forms of Superstition and Society. With Maps. Four vols. 8vo. 50s. net.

MR. A. E. CRAWLEY IN *NATURE*.—"That portion of the book which is concerned with totemism (if we may express our own belief at the risk of offending Prof. Frazer's characteristic modesty) is actually 'The Complete History of Totemism, its Practice and its Theory, its Origin and its End' . . . Nearly two thousand pages are occupied with an ethnographical survey of totemism, an invaluable compilation. The maps, including that of the distribution of totemic peoples, are a new and useful feature."

LECTURES ON THE EARLY HISTORY OF THE KINGSHIP. 8vo. 8s. 6d. net.

ATHENÆUM.—"It is the effect of a good book not only to teach, but also to stimulate and to suggest, and we think this the best and highest quality, and one that will recommend these lectures to all intelligent readers, as well as to the learned."

PSYCHE'S TASK. A Discourse concerning the Influence of Superstition on the Growth of Institutions. Second Edition, revised and enlarged. To which is added "The Scope of Social Anthropology." 8vo. 5s. net.

OUTLOOK.—"Whether we disagree or agree with Dr. Frazer's general conclusions, he has provided us with a veritable storehouse of correlated facts, for which, and for the learning that has gone to their collection, and for the intellectual brilliance that has gone to their arrangement, we can never be sufficiently grateful."

MR. EDWARD CLODD in the *DAILY CHRONICLE*.—"If a man die, shall he live again?" is a question asked chivalds before Job put it, and the generations of mankind repeat it. In this profoundly interesting volume, Professor Frazer, out of the treasury of his knowledge, and with consummate art of attractive presentment, gives the answers devised by the Lower Races."

PAUSANIAS'S DESCRIPTION OF GREECE.
Translated with a Commentary, Illustrations, and Maps.
Second Edition. Six vols. 8vo. 126s. net.

ATHENÆUM.—"All these writings in many languages Mr. Frazer has read and digested with extraordinary care, so that his book will be for years the book of reference on such matters, not only in England, but in France and Germany. It is a perfect thesaurus of Greek topography, archæology, and art."

GUARDIAN.—"Here we have material which every one who has visited Greece, or purposes to visit it, most certainly should read and enjoy. . . . We cannot imagine a more excellent book for the educated visitor to Greece."
